Part Number Crossover Charts

This Catalog supersedes all previous editions. Compared to the earlier versions, changes are mainly limited to series names and port designators. Except for the structural optimization of ball valves, there is no change in the design and function of other products. Due to these changes, product P/Ns are accordingly updated. Please refer to the crossover charts below in your product selection.

Part Number Crossover Charts

20D Series Tube Fittings

Formerly Used P/N	New P/N Adopted
SS-U-DHL2	SS-DU-DFF2
